

Welcome to Three Lakes School and our communities! Our vibrant school is a learning community where our students have the opportunity to grow academically and socially in a supportive setting. We are a small school, but like other small rural schools in our great province our students experience a range of high quality educational experiences in both curricular and extracurricular settings.

Three Lakes School students and staff take immense pride in their school. When you visit our school you will notice a well maintained and bright building. The Avenger team colours highlight the walls of our bright and welcoming hallways. Our caretaker Mr. King does a fantastic job taking care of our school. His dedicated service to the school comes through in his attention to detail, resulting in a building that is very pleasing to visit.

When it comes to extracurricular activities Three Lakes School Avenger Athletics has a long standing history of success. Over the decades championships in a number of sports, particularly soccer and basketball, have been won. Walking into the gymnasium you will pass the trophy cabinet that is full of the accolades earned by the teams or individuals. Inside the gymnasium you will see the gym encircled with achievement banners.

If you have any questions about our school we encourage you to contact us. Please call the school office at 306-367-2122. If you are moving to the area and seeking information about your child's registration, or reaching out for any other reason, Ms. Krentz, our dedicated administrative assistant, will be happy to help you in your inquiry.

- *Mr. Dwane Burke*
