

Presents:

An Early Childhood Community Developmental Screening Event

The first years of life are very important for your child because this time **sets the stage for success** in school and later life. During infancy and early childhood, your child will gain many experiences and learn many skills. As parents, we don't always know if our children are on track developmentally. This day is intended to support parents of children aged 2 mos. to 5 years.

This should take about 30 minutes or less to complete. Bring your child and watch them play as we discover his/her stage of development.

Location: Three Lakes School

Date: April 3, 2019

Time: 9:00 am – 3:30 pm (drop-in)
