## SCHOLARSHIPS

<https://fundingforschool.wordpress.com>    Twitter: @HorizCareerGuidance

This website is the main posting place for information regarding available scholarships and is a central location that can be accessed by anyone at anytime from anywhere they have an internet connection.

Every student grade 10-12 is made aware of this website multiple times each year (in group and individual sessions) and the link is also posted in classrooms at the bottom of my contact poster. Each year we have tens of thousands of dollars awarded to students who have applied after finding scholarships on this site.
